Tri-City Port Seeks Old Levee Property

Asks Levee District To Transfer 1-mile Stretch Near Canal

Board members of the East Side Levee and Sanitary district will meet June 1 with Comdr. John Barron, manager of the Tri-City Regional Port District, to confer on transfer of a section of the old levee along the Chain of Rocks canal to the port district.

The board discussed the matter only briefly yesterday morning when William "Mike" Eberhardt of Venice, Illinois, a member of the planning committee of the levee by the port district will not interfere with the land recently loaned to the Trail Riders Saddle Club on the east side of the levee just off Rock road.

Lawrence Tolar, board president, suggested the board obtain more data from Barron before the board acts.

The port district has asked the levee district to convey to it a stretch of about a mile of the old levee from 20th street to a point behind the A. O. Smith Corp. plant.

In so doing, the port district and levee district would eliminate considerable legal work on easement transactions as pipeline, utility and other installations by the port district increase.

Barron told the Press-Record that a separate easement would have to be obtained from the levee district, each requiring a considerable amount of legal work, for each installation of any kind that passes over, under or through the levee, so long as the levee district retains possession of the land.

The port district has proposed transfer of the levee land to the port district with the understanding that if all or any part of it is sold in the future, any funds obtained through such a sale would go to the levee district.

To meet June 1, the levee board will hold its regular meeting next month on June 1 instead of the regular date of June 8 because several levee district officials plan to attend the annual National Rivers and Harbors convention in Washington June 7 through 10.

Those planning to attend the meetings include Eberhardt, Tolar, Chief Clerk Ben Campbell and Chief Engineer A. L. Kramer.

Claims totaling \$53,621 for work on the Landowner Sewer Treatment plant were approved during the meeting yesterday. They included two contracts by Horner & Shifren engineering firm for \$2369 and \$4943, in payment for supervision, inspection and surveying; Bart H. Allison accounting firm, \$1560 for accounting services; Keeley Bros. Construction Co., \$35,822 for labor and materials and Collinsville Construction Co., \$15,927 for labor and materials.

Payroll of \$26,859 for the first half of April and \$30,185 for the last half of the month were approved.

Comptroller Post Goes To Robert Stevens

New City Officer is Accountant and Son of Ex-Clerk A. L. Stevens

Appointment of Robert W. Stevens, son of retired city clerk A. L. Stevens, to the \$2000-a-year job as city comptroller, was approved unanimously by Granite City council members Monday night.

Stevens, who presently is an accountant for Granite City Steel Co., plans to start his new post next week. He has been employed at the steel firm's office for the past 15 years. He will fill the vacancy created by the sudden death of John J. Doher, city comptroller for nearly 20 years.

The new comptroller is a graduate of the school of commerce and finance at St. Louis University. He is 44 and resides at 3805 E. 12th street. His wife, Mrs. Valerie Stevens, is vocal music director for Madison schools.

Stevens often aided his father on a part-time basis in the city clerk's office before the elder Stevens' retirement last year. Jack D. Higgins of East St. Louis, had urged the council to hire a comptroller as quickly as possible, because of the need to keep the city records as detailed as possible.

Records are excellent. Higgins was called in last week after the death of Comptroller Doher on April 22, and he reported to the council that the city's records were in excellent condition and were posted through April 23.

He praised the financial program carried out by the late Comptroller Doher and said the assistant comptroller, Mrs. Givens, was carrying on with the work.

However, with the complexities of closing the city's books for 1965, he said, the council on April 30 and preparation of the annual financial report without delay, he suggested the employment of a full-time assistant at the rate of \$75 a day for a week or 10 days.

City Dump May Become Profit-Maker for GC

Granite City might get back the \$20,000 it paid for the city dump about 18 years ago, according to Mayor Arney.

The mayor said the city of East St. Louis is wanting to enter an arrangement with the city at a fee of \$80 a month. "We figure \$100 a month is more suitable," Arney told the Press-Record.

Either side of the city has been praised by the state department of public health for its operation of a "better-than-average" land and reclaimed and sold.

Under the present contract with National Disposal, the firm is to provide a dump for the city and the present dump is no longer suitable.

Con Man Still Making Calls Here

Police are still searching for the confidence man who stole \$2800 last week from an elderly Granite City widow, and they have learned the man has been attempting twice since that time. The woman withdrew the money from her bank account and gave it to a "private detective" who was to trace down a thief.

Chief of Detectives George Taylor pointed out the man's name is in the area. He was riding along Namek road, and he is asking all persons receiving such calls to notify the police department.

Motorcyclist Fired Over 'Snot Misses'

A motorcyclist reported that one of his or four youths in a black 1965 auto took a shot at him at 42nd p.m. Monday while he was riding along Namek road at East 24th street.

He is Robert W. Mull, 2914 1/2, palmer avenue, who said the shot missed. He chased the car but was unable to overtake it. He said it turned west on 23rd street.

Mull added that he heard three other shots, perhaps coming from a 22-caliber rifle.

Mammoth Area Clean Up Starts Next Week

(Picture on page 36)

Civic groups, municipal authorities, labor and business organizations, together with Girl and Boy Scout units, individual citizens and industrial concerns are completing plans this week for the largest "clean up, paint up, fix up" campaign ever undertaken in the Quad-Cities.

The drive begins Sunday and continues through May 23. Latest action to be taken in connection with the four-community project was reported today by Granite City Fire Chief Earl Fronberger, who announced his department will carry out "in service" fire inspections Monday, at business establishments in the downtown and suburban areas.

Chief Fronberger continued, "two uniformed firemen utilizing a city fire truck will inspect alleyways, doorways and building exits for conditions which may prove hazardous in the event of fire. One fireman will make the inspection, while the second officer is to remain with the fire truck. By using this system, it will allow the vehicle to respond immediately to an alarm, if necessary."

Written reports on conditions at each place inspected are to be sent to business operators to gether with recommendations for improving unsafe practices or conditions where appropriate, the chief said.

Plans were announced today for a general meeting of the Organization for Community Action will go to Springfield Monday morning to attend an Illinois Commerce Commission hearing on installation of protective devices at the hazardous Maryville road crossing.

GC Sewage Treatment Bills To be Mailed About June 1

The first sewage treatment bills for Granite City are scheduled for mailing this month — will go out June 1, it was decided Monday night by Granite City council members. Although the 90-cent a month per household charge was to have been started last Jan. 1 under the \$1,225,000 sewer bond ordinance, council members believe sufficient funds will be collected to meet the July 1 interest obligation, and the first bond payment next Jan. 1. Operation of the treatment plant is to start next month.

Alderman Charles Moerlein, chairman of the Special Pollution Committee, said a preliminary study of available figures indicated the June 1 starting date would be adequate.

Inter-City Clubs Still Plagued By Weatherman

Rain and dampened-grounds continued to play havoc with the Southwestern Illinois Inter-City Baseball League schedule last Sunday but only the Troy Red Birds have as yet to get in their first game. East Alton and Mercey finally notched their initial outings after two rain-soaked Sundays.

Troy, washed out for the third consecutive Sunday, was scheduled to host Hearts-Liberty Home, also victims of the weatherman the previous Sabbath, with only one game played thus far.

Madison Slugs Way Into Conference Second Position On Improved Game

Coach Earl McClanahan's Trojans traded victories with the Cahokia Comanches in Midwest Conference diamond action Monday and Tuesday and made a second-place 5-4 record.

The Trojans drummed out nine hits in Tuesday's 1-0 victory at contest at Madison Tom Williams' 3-RBI first-inning base-loaded double, Madison had preceded Willis' blast by scoring two runs on a hit batsman and a bag-full walk.

Leading 6-0 after adding a hit in the top of the second, the Comanches tomahawked starter Greg Wasylak with a five-run uprising. It all began with three bases on balls but grew worse after a double, a pair of errors on the catcher and the shortstop and a triple.

The Comanches were quickly subdued when Willis Harman making his varsity debut, came

Sprint, Medleys Win Tri-Meet For Warriors

The Warriors' eight event winners in a triangular meet with Edwardsville and Collinsville on the home cinders Tuesday was more than enough to offset any individual weaknesses as Granite City won handily with 58½ points. Collinsville was second with 46½ and Edwardsville had 43 points.

Granite City's thriftness might have revealed some weakness in event depth with only two seconds, four thirds and five fourths, and a glaring weakness in field events where they only scored ten points. But in sprint and relay events the Warriors continue to look impressive.

In the 440-yard dash won by Carl McDowell the Warriors placed third and fourth. In the 220-yard dash taken by Leonard Revelle field-eventer L. A. Lapinski finished with a promising third place.

In both the 880-yard and mile relay events the Warriors bettered their point-winning marks chalked up at Centralia last Saturday as they took toward tomorrow's East St. Louis Relays.

in and proceeded to pitch seven strikeouts, one-hit ball behind the Trojans' continuing even-paced five-run barrage. Harman walk only one batter and retired the side in order, in all but the seventh where he yielded a two-run double.

In the Monday extra-inning contest at Madison Tom Williams looked good in the early going and the Trojans jumped ahead in the fourth after Wasylak, playing center field, doubled and scored on an error.

But a single, a sacrifice and a throwing error allowed the Comanches to knot the score in the fifth.

Madison threatened in the sixth when they had a runner on third with no outs. Wasylak, with two doubles and a single for the game, had stolen second after singling. An error advanced him to third but the Trojans couldn't bring him in.

Girls Softball On Park Summer Sled This Year

Leon Chappel announced this week that persons interested in the girls' slow-pitch softball program at the park this summer are urged to attend a meeting at the park office at 7:30 p.m., today.

The Coedigue junior high baseball team made a last ditch bottom-of-the-seventh effort but failed to pull out a 5-2 defeat at the hands of Edwardsville Monday. A double, walk and two singles got Gary Simpson trouble in the fifth as Edwardsville scored three runs.

Park District Cries Out For Boy's League Umpires

Granite City Park District athletic director Leon Chappel announced that the park district is in dire need of 14 to 18 umpires for the boys baseball program to get under way May 16.

"We're primarily interested in high school seniors and vacationing college students," Chappel explained, "who've had some baseball experience." This is a

wonderful opportunity for a boy to pick himself up from \$180 to \$200 during the summer and have some money to go to school on in the fall," Chappel said.

Chappel noted that the park district's baseball program involves a Monday through Friday schedule with a few games and makeup affairs on Saturday. Normally an umpire will work from 6 to 8:15 p.m. each evening.

The pay for umpires has been increased this year and is \$3.50 per game. The park district furnishes all umpiring gear.

Chappel noted that the park district is also interested in boys or men who can officiate on only a part time basis in the 70-team boys baseball program. "We can fit them in if they'll only come to the park office and talk to us," Chappel said.

John N. Miller Gun Club Newly Re-organized

The Granite City Steel gun club under its original name, John N. Miller Gun Club, has been recently reorganized and is now affiliated with the National Rifle Association.

Officers in the 136-member organization are: A. W. Schoenbeck, president; Norman Moerline, vice-president; Paul Jameson, secretary; Elvin Smith, executive officer; and Bob Carroll, officer in charge and chief instructor.

Membership in the club, which features instruction and competition in rifle, shotgun and pistol shooting as well as skeet and trap, is open to any employee at Granite City Steel.

The club shoots on a nearly completed open range at Horseshoe Lake behind the blast furnace and has regularly scheduled instruction-practice sessions every Saturday between 10 a.m. and 4 p.m.

Additionally, the club has three teams of skeet and trap shooters. The "A" and "B" squads compete at the Western Club shooting grounds opposite the Olmsted plant in Alton on Monday and Tuesday evenings. The "C" squad, an open group, is competing with the Alton Sportsmen Club in North Alton at the range off of Old Godfrey road at 7 p.m. on Tuesdays.

While announcing a general membership meeting for May 11 at 5 p.m. in the works office cafeteria number two, Carroll said, "We have received a lot of support from people in the community in reorganizing the club and are very appreciative of the help given us by everyone."

Tri-Mor Tourney Set as Keglers Seek Trip Prize

Eight more keglers have qualified to bring up a total of 32 men and women bowlers competing in the Saturday night roll-off of Brunswick's "Bowl Your Way To Europe" tournament at Tri-Mor lanes.

The man and woman winning the 6:30 p.m. scheduled roll-off will win a free three-day trip to Washington, D. C. for the final deciding which couple makes the European jaunt.

This week's final qualifiers were: Cliff Parks, Harold McBride, Ruth Tedesco, Mable Turnbull, Dan Miller, Curt Williams, Bertha Packer and Vinita Alford.

Assumption Too Much For Madison Net Men

Coach John Phelan's Madison tennis team found the Assumption Pioneers slightly unreciprocated in a 4-1 loss at Jones Park in East St. Louis Monday afternoon.

Jim Purkale was the only Trojan net man to mount much of a threat in singles. The Madison doubles team of Dave McClelland and Nat Orr went down less handily in their three-set defeat. Assumption defeated one doubles match by not having a player.

In singles Tom Maslander was beaten by John Connors 6-4, 2-6. John Carlson lost to Ed Wondolowski 6-4, 6-8 and Purkale was defeated by Pat Tursky 4-6, 2-6.

In the one doubles event Assumption's Jim Ellison and Webb Barber were victorious in two sets by identical scores of 6-3 after being down 5-7 in the first set.

Warriors End Conference Slate in Close 1-0 Loss

Monday's final conference game for the Warrior baseball team proved to be one of the more exciting contests of the season as they were edged 1-0 at Collinsville in the last of the seventh inning.

Yesterday, still displaying solid pitching and tight defensive play, the Warriors brought their overall record to 18-8 in defeating Albion 5-1 in Belleville. Granite City ended conference play with a 5-8 mark.

In Monday's game the Warrior, while getting a 4-hit route performance from Tom Stitt, found another Tom about twice as tough. Collinsville's Tom Kalza allowed only two singles, seventh-inning hits to Bill Cox and Charlie Collins.

Kalza, who bats third in the Kahok lineup, struck out nine and walked one. Stitt, who fanned six, walked only two and one of them intentionally — Kalza.

The intentional walk to Kalza

seemed a good move in the bottom of the seventh following Kiehl Zeisel's double and a fly-ball out. The next batter flied out. But third-baseman Bob Kiehl hit a shot to Charlie Collins at shortstop that took a bad hop and the winning run was home.

In yesterday's game Jim-Rains struck out six and walked two in his route-going performance after yielding the lone run in the first inning. Fred Hoffman's double was the only really solid clout among the Warrior's seven hits as they spaced their scoring into three innings.

Kahok Soph Team in 6-3 Bow

The Warrior sophomore baseball team found their Collinsville opponents a little less formidable Monday than was the case for the varsity nine. Coach Champlin's squad bunched three runs in each of the fifth and sixth innings to win 6-3.

Ron Laws, who pitched five men, led off the fifth by walking. He then scored after stealing second and third when Rick Fosbeck singled. An error at second base let in two more runs.

The Kahok sophomores knotted things with two walks off Laws, and a base hit and an infield error. But Steve Stiff's single united things in the sixth and another 6-3 after being down 5-7 in the first set.

Warrior Golf Team Falters, Then Rallies In 3 Matches

Coach Harry Lane's Granite City golf team has found the going on unfamiliar courses during this week's road schedule pretty rocky, although the players rallied strongly yesterday to trim Wood River at Alton by 40 strokes.

Earlier in the week the Warriors had fallen to Lebanon on the Tamarac Course by 11 strokes and were one stroke worse at Lebanon the following day in a 12-stroke loss.

"The boys truthfully haven't been playing well," Coach Lane commented, "but it is hard to win the road playing courses you haven't seen before."

The Warriors had played the Rock Springs course at Lebanon before as their six-birdie performance indicates. They had carried only one birdie in the previous two matches.

With an 8-3 record the Warriors return to Rock Springs Monday for the Southwestern Conference Golf Tourney which gets under way at 11 a.m. Alton, Belleville, Collinsville, Edwardsville, Wood River and Granite City will enter seven players in the 18-hole tourney.

Before the Monday trip, however, the Warrior golfers travel to Quincy Saturday for the invitational tournament there involving around 30 schools. It has an 8 a.m. tee-off time.

Saturday's affair is the first of two such racing events. The final program in which contestants race against the clock and can win on either day is scheduled for May 14.

Warrior Sophomores Lose To Alton in 1-0 Tilt

The Warrior sophomores were edged out 1-0 by Alton Wednesday night at Wilson Park despite Jim Park's 11-strikeout pitching which saw him retiring nineteen batters in a row following a fourth-inning error.

A single, punt and intentional walk following two outs in the first inning led to Alton's lone run as Parks nicked a batter to force in the tally. From then on Parks was invincible.

win on either day is scheduled for May 14.

Little Leaguers Need Umpires

The Nameoki-Pontoon Little League will hold its season-inaugural ceremony at 12:45 p.m. Saturday at the Nameoki school, 1620 Pontoon road. League officials will be in charge with the event including prizes for children and a parade by the uniformed baseball players.

The Nameoki-Pontoon program this year encompasses 19 teams representing more than 285 boys and about 50 adult volunteers in the roles of managers, coaches and umpires.

The age brackets fall into two categories: the minor and major leagues made up of boys from 9-12 of which there are 15 teams involved and the senior league comprised of players 13-17 with four teams.

The program schedules games every evening Monday through Friday with three contests on Saturdays. Games are played on the diamond behind Nameoki school and a new field just being completed at Park lane in Pontoon Beach.

All 19 teams have sponsors and managers but the league officials are concerned about a shortage of umpires and have made an appeal for volunteer arbitrators to assist in the league's promising summer program.

Cahokia Edges Coolidge 4-3

Cahokia played Coolidge right down to the wire in an eight-inning ball game Tuesday on the Braves' diamond to edge out Coolidge 4-3. The Braves, scoring once in the fourth and sixth knotted the score in the bottom of the seventh but couldn't win. They had the bases loaded with two out and a 3-0 count on the hitter.

Cahokia's Muskoloff, struck out 16 Braves hitters while Coolidge's Steve Harris, less impressive in strike outs, issued only one base on balls. Gary Simpson is three-for-three, Alan Hendrick with a double and Ronny Kee's seventh-inning pinch single were Coolidge standouts in the losing cause.

City Auto License Sales in GC at \$4500

Sale of 1966-67 city auto licenses in Granite City is nearing \$400, it was reported today by City Clerk Homer "Cal" Pendleton, who noted that 12,778 windshield stickers were sold in the 1965-66 fiscal year which ended April 30.

The new stickers are being sold at the same price of \$3 for an auto. The fee for trucks depends on the size of the vehicle.

Clerk Pendleton said his office is open on Saturdays from 8 a.m. until noon to accommodate auto owners. Police have not yet announced the date for a drive on delinquent licenses. It usually starts early in June.

Nameoki Township Rabies Clinics Start Saturday

Nameoki township, which has been plagued by a growing dog problem, will conduct a series of anti-rabies clinics beginning Saturday. Inoculations will be made by Dr. Leland Holt at the usual charge of \$2.50 for each pet.

Members of the Nameoki town board, which set up the schedule Monday night, will be present.

The first clinic will be held Saturday at the State Park Community House from 12:30 until 2 p.m. or later if the volume of work requires.

Other clinics will be held May 14 at the Charles Werner residence, 2020 Sixth street, from 12:30 to 2 p.m.; May 21 at the Long Lake fire hall from 12:30 p.m. to 2:30 p.m., and the Jones Lumber Co., from 2:30 p.m. to 4 p.m.

Town board members who set up the schedule of clinics Monday night pointed out that inoculation of cats is now possible, at the same charge.

Pete Atanasoff, 80, Dies; Ill 9 Months

Pete Atanasoff, 80, of Rural Route One, Caseyville, a 55-year resident of Madison and Granite City, died about 11:25 a.m. Wednesday at St. Elizabeth Hospital. He had been in failing health for nine months and was a patient at the hospital for one day.

Mr. Atanasoff, a native of Bulgaria, was a retired Laclede Steel Co. employee and was a member of Lodge 581 SNIP at Caseyville. His wife, Angeline, survives.

Funeral arrangements are given in today's obituary column.

Nameoki Twp. Managerial Study Decision Still Pending

A contract for a financial audit and managerial study of Nameoki township will be discussed in a special meeting of the Nameoki town board and representatives of the St. Louis auditing firm of Peat, Marwick, Mitchell & Co., it was decided by the town board in regular meeting Monday night.

The special session will be held Saturday afternoon to discuss an \$1500 proposal by the auditing firm to make an audit and study as specified in a resolution adopted at the April 5 annual town meeting. A figure of \$1200 was set upon the budget to do the job.

Harry Briggs, Nameoki township supervisor, and members of the town board set up the special meeting at the suggestion of Nick Vassileff, town attorney, after William Gary, a representative of the citizens' group opposing present township administrative policies, insisted several times that selection of an auditor be made in compliance with a resolution passed in the annual town meeting.

Gary referred to a measure that limited the selection of an auditor to three firms—the Peat, Marwick, Mitchell & Co., Price, Waterhouse & Co., and Ernst & Ernst. All of these firms are of St. Louis.

30 Bids Sought
Earlier in Monday's meeting John Kariechik jr., town clerk, had informed the board members and audience that he had sent out requests for offers on making the audit and study to 30 auditing firms in Belleville, Allen, Granite City, Collinsville and St. Louis.

He said he received only eight responses. Ernst & Ernst, one of the three firms listed as a choice by the citizens group, was among those that did not answer.

One of the firms, Jackson & Kaufman of St. Louis, pointed out that under rules of professional conduct governing auditing firms, public accountants do not make bids in competition.

The firm did not submit a price. Another firm, the Hochschild Bloom and Darrick accountants of St. Louis, said in its letter that "competitive bidding for public accounting is not in the best public interest."

The C. J. Schlosser Co., of Alton made a "maximum" offer of \$750 to do the work. Gillette Dwyer Co., St. Louis, made an offer of \$1500; Barken Schmitt & Co. of Clayton, Mo., made an offer of \$2800, and the Arthur Anderson Co. of St. Louis said it could not do the work for less than \$2500 and it probably would amount to \$3500.

Price, Waterhouse & Co. of St. Louis made no offer in its letter but requested a meeting with the citizens group to work with the town board in auditing and management recommendations.

Briggs said he would speak with McGrew about making the appointments as soon as possible.

The committee is to be appointed by Dan McGrew, moderator of the annual meeting, who originally named the five officials of the town board to the "Citizens Committee" after passage of the resolution at the annual meeting.

Vassileff was asked if he thought it were legal for McGrew to name the committee since McGrew's office as moderator ended with adjournment of the annual meeting.

Vassileff remarked that he believed it would be proper to "keep within the spirit of the resolution" which was intended to set up a committee from the citizens group to work with the town board in auditing and management recommendations.

Briggs said he would speak with McGrew about making the appointments as soon as possible.

Make Second Wage
Rate Proposal to
Cooks, Waiters

A second wage increase offer to members of the Cooks and Waiters Union, local 481, was submitted to union officials by Quad-City restaurant operators yesterday afternoon in a meeting at the Labor Temple.

The offer followed rejection of a wage rate proposal in balloting of two special meetings of members at 2 p.m. and 8 p.m. Monday. The vote ran about eight-to-one against accepting the first proposal.

The contract for waiters, waitresses, cooks and dishwashers expires June 1, according to Mrs. Helen Peters, business representative of the union. She said a time for voting on the new wage proposal has not been set. Wage increases are the only issue involved in the negotiations.

The offer rejected by balloting Monday provided a 5-cent per hour increase for waiters and waitresses and 10 cents per hour for cooks for a two-year period. Waiters now get \$1.10 per hour and cooks \$1.43.

The new offer submitted yesterday provides a 5-cent per hour increase for the first year with another 5-cent increase for the second year for waiters, and 10 cents per hour for cooks for the first year with an additional 5-cent raise for the second year.

MORE ABOUT

Comptroller

The recommendation was accepted, and the assistant is to start work next Monday. Huggins firm has audited the city's books for the past several years and is familiar with the financial operations of the various city accounts, including the sewer accounts. Council members also are conferring with experts to determine if the financial department record-keeping methods can be modernized.

Tri-City Port

proved, as were claims in the amount of \$71,013. The second half of payroll claims was higher, levee board officials said, because of overtime work at pumping stations during the three week rainy period. The treasurer's report showed that the levee district issued \$100,000 in anticipation warrants during April. The warrants all were sold to the Bank of Cahokia at 4% interest. Total expenses of the levee district during April amounted to \$86,832. The district had a May 1 balance of \$49,573.

Pistol Range Rent Cut to \$60; GC Council Stalls New Police Station

The monthly rental fee for the shooting range formerly owned by the city has been reduced to \$60 a month, and the lower fee was found acceptable by the Granite City council Monday night. Mayor Partney reported he had successfully negotiated a reduction from the \$120-a-month originally sought by the state highway department which had purchased the structure from the city for \$34,000. The building is on the right-of-way for Federal Aid Route 151. While the \$34,000 was earmarked for construction of a new police station with jail and firing range, the council voted Monday night to proceed immediately with the purchase. Alderman Whitmer, chairman of the city's police committee, said he had a contract proposal from Architect Virgil Dulgeroff, but wanted to get the sentiment of the council before reading it. He estimated the cost of the new police facilities to be \$150,000. If it is proposed the building be located on the city-owned block between the main fire station and the new post office in the 23rd block of Madison avenue. Before he died, Comptroller John Decker told them there would be sufficient funds in the sale of the building to pay for the tax account to do the job in the next two years. Whitmer reported. He recommended \$60 be set up for the construction in the city's new 1966-67 budget and a similar amount the following year. Support of the proposal was urged by Alderman Paul Rutledge, chairman of the Finance committee, who said that if the project was stalled, the city could be out of reserve funds within two years. He blamed the Hodge-Butler tax limit for the city's tax plight. Objections were raised by other aldermen over the possibility of depleting the city's reserve funds for the building, and the \$60,000 budget proposal was voted down 8-to-6.

Police Training

In other action concerning the police department, the council approved an ordinance requiring all probationary patrolmen to take a course required under the Illinois Police Training Act. Whitmer told council members his committee did not believe it was practical for the city to eliminate two parking meters at the city hall to install a drive-up traffic fine deposit box for persons issued the new mail-type arrest tickets. "Parking space is too much at a premium at the city hall," the chairman said. Personnel committee chairman

Thieves Get Flute, Copper, Liquor in Thefts, Burglaries

Ten cases of thefts and burglaries, in which loot ranged from a flute to copper ingots to a flute, were reported to Quad-City and county authorities this week.

Gene Frith, proprietor of the Hildway lounge, old Routes 66 and 67, reported that sheriff's investigators did an efficient job in investigating a burglary Wednesday which occurred early that morning.

He said it was the third time his establishment was burglarized in a year, and he complained that on the previous occasions, investigators were late in arriving and evidence was missed.

However, this time he reported that deputies appeared 10 minutes after the burglary was discovered and reported at 9 a.m., and evidence as fingerprints was obtained. Entry was gained through the back room window, the same as the other two instances. An undetermined amount of liquor was stolen, and the cigarette machine was broken open.

Frith complained that previously the loot was valued at \$200 to \$400, and because of the location of his tavern, he is unable to obtain insurance coverage.

1960 Auto Stolen
Alvin Thompson, 110 Calhoun street, Venice, reported to police Monday that his car was stolen from 1107 Douglas street, where it was parked. The car is a red, 1960 four-door model.

Jorella Cox, 10, of 2630 Grand avenue, reported at 3:10 p.m. Wednesday that her flute in a black case was stolen from Memorial Park, 31st street and Madison avenue, where she was playing about a week and a half earlier.

Officers at the Granite City Army Depot reported to Venice Police Wednesday that ten ingots of copper valued at \$389 were stolen Tuesday night or early Wednesday from the depot. Police said the copper bars apparently were hauled away in a coaster wagon or small, four-wheeled cart to Merchants Terminal Railroad Association. An inquiry will be held.

Dacus, a yard clerk for the Terminal Railroad Association, was a native of Granite City and had lived in the Quad-City area all of his life. According to a YMCA spokesman, Dacus placed a "Do Not Disturb" sign on his door when he checked into the room at the Jackie Woods, noticed fresh towels, placed at the door Wednesday, still were there when she made her rounds this morning. She called a maintenance man, David Cunningham, who opened the room. The maid said she opened the door and looked in Wednesday, and Dacus was lying in the bed. She thought he was asleep and left.

Dacus was lying in the bed, face down. He was under a physician's care. Several weeks ago he was hospitalized after he slashed both wrists.

He leaves three children, Gary Warner Dacus Jr., Allan Wayne Dacus and Melinda Fay Dacus; two sisters, Mrs. Lloyd (Glenda) Stubbelfield of Madison and Mrs. Donald (Mildred) Johnson of Granite City; his mother, Mrs. Maxine Dacus of Granite City; and his father, Glen Dacus of San Francisco.

Funeral arrangements are given in today's obituary column.

What is A Mother?

To her family, she's special.
She's understanding,
a banquet chef, a short order cook,
a fountain of love, a chauffeur,
warmth and security.
She's clean socks, starched dresses,
a mender of hurts.
She's scrubbed ears,
a tender nurse, a maid, a queen.

She deserves a day of honor and tribute.
She deserves the love of those she loves.

Yes, she's very, very special.

This Sunday, you'll tell your mother
how much you care.
We'd like to tell all mothers, "We Care, too."

and autos at times in the North Venice area. The situation was referred to the legal department. The same complaints have been aired before the Venice city council.

Mayor Maeras noted that the company has installed a new precipitator, "but evidently it does not work satisfactorily at all times." He added that many industries here are guilty of air pollution but are spending millions of dollars in trying to do something about it. "Eventually we will have controls over auto exhausts," he concluded.

Alderman Steve Kelso complained of odors from burning magnesium by the Dow Metal Products Co., leaving a white dust in some areas. It is to be referred to the state air pollution board by the legal department.

Role of Red Cross in Vietnam Explained

An American Red Cross field director who played a key role in rescue operations carried out in Vietnam during the disastrous floods in the fall of 1964, was the featured speaker Tuesday evening at the annual dinner meeting of the Tri-City Red Cross Chapter. The guest also described the organization's part in providing a link between the servicemen overseas and their family at home.

The speaker was Dale E. Petranek, now serving as field director at the Richards-Gabaur Air Force Base, Grandview, Mo. He related numerous incidents he witnessed while stationed for two years in Vietnam. The dinner was held at Niedringhaus Memorial Methodist Church.

An estimated 10,000 Vietnamese civilians died as result of the 1964 floods, Petranek said. Countless thousands were rescued from perilous situation by U. S. service personnel, utilizing helicopters, which he described as an invaluable asset in the semi-jungle terrain. Many charitable and humanitarian acts, accompanied here without question, present an entirely new concept of life to people of Far Eastern countries, he stated.

Liaison Officer
Petranek's own role in the disaster operations was as liaison officer with the Saigon government and U. S. and Viet military leaders. The Red Cross program in Vietnam has steadily expanded its services and, personnel to meet increased needs, he explained.

The former Marine Corps officer said, extreme difficulties are being experienced by Red Cross field officers while attempting to reach servicemen with emergency messages. Most units are constantly on the move, he explained.

Gerald G. Walters, chapter chairman, introduced the Red Cross officer with the Saigon government. Prior to dinner, the invocation was offered by Capt. Richard Hilton, GCAD chaplain. Approximately 80 persons attended.

"Entertainment was provided by members of the Granite City high school junior Red Cross, who presented a skit entitled 'The Story of Red Cross.' Performers included Linda S. B. 1966-67, included Jack Abasalom.

RED CROSS EMBLEM, symbolic of the international Red Cross Organization, together with flags of the 133-member nations, decorated tables for the annual dinner meeting of the Tri-City Red Cross Chapter held Tuesday. Gerald G. Walters, chapter chairman, and Mrs. Ruby Overbeck, local executive director, officiated at the dinner.

Vicki Simmons, Barrie Massie, chairman; Carl Baczenas, vice; Pam S. W. n, Edward Eubanks, chairman; Mr. Lee Pfaff, secretary; Tony Papp, Jim Greve and Philip Retz, also present.

Poster Contest Winners
Michael Jesse, newly-appointed Red Cross water safety chairman, announced the winners of a grade school poster contest recently conducted. Those introduced were Anthony Gray, third grade; Toby Lee Stalcov, fourth grade; Tommy Adams, sixth grade; and Patricia Morris, fifth grade.

In a surprise ceremony, a certificate of appreciation was presented to Walters, who has served two years as Tri-City Chapter chairman. The certificate, awarded by the Red Cross Mid-Western Area office, was presented by Miss Ruth Mellor, area field representative.

Nomination of new officers was held, with an election to take place at the chapter's regular June meeting. Those named for the Tri-City Red Cross Chapter's annual dinner meeting.

The four men were ring-leaders of a disturbance at the prison in which the three guards were stabbed with handmade knives and several other guards were wounded.

Selection of a jury was begun Monday afternoon following opening legal arguments before Circuit Judge Fred Douglas. Motion for a mistrial was denied yesterday afternoon when defense attorneys sought dismissal of the case because of a publication of photographs of the widows of the three guards shown as they entered the courthouse with James McMahon, assistant director of the Illinois Department of Public Safety.

Venomous Bites Hazard in Vietnam

(American Institute of Biological Sciences)

A problem as old as Adam—the bites and stings of venomous animals and the diseases they cause—has been the subject of a special symposium to be held in Atlantic City, N. J.

The International Society of Toxicology will sponsor the meeting, which will be attended by scientists from all over the world. Specialists from Israel, Argentina, Taiwan, Australia, Costa Rica, South Africa, England and the United States will join to focus attention on two vital facts about knowledge and research in this field:

1. In the world of science, the study of animal poisons and venoms has been unique in that it has attracted only those geographic areas where there were related problems.

2. The body of knowledge about these animals and the dangers they represent is relatively small, and the research is completely disproportionate to the problem.

The magnitude of the world's problems in this area has received recent attention because of the number of casualties among American servicemen in Vietnam from the bites of snakes, scorpions and spiders.

Man, at present, has little or no defense against the venomous creatures except avoidance. Residues Being Refused

"One man's trash basket is another man's living space," reports a special committee of the National Academy of Sciences—National Research Council, which has recommended the construction of a full-scale experimental waste management

The Law Serves You

Private Land Taken for Public Use

(A public service of the Tri-City and Illinois Bar Associations.)

The right of every citizen to own property, to sell or rent it as we please, and to pass it on to our heirs at death is considered to be a basic right by citizens of the United States.

However, titles to land are not absolute, and the land we own may be taken for use by the public in case necessity requires it.

The power which is vested in certain bodies to acquire private property for public use is known as the "power of eminent domain," or the "right of condemnation."

Cities and villages, highway commissions, park districts, railroads, airport authorities, and other governmental and public utilities have been given the power to acquire land from private owners in a cooperative fashion, in order that it may be used for an authorized public purpose.

Just Compensation

The federal government and the states have the inherent power of eminent domain over property within their borders.

As to all other government agencies and organizations, the power can be acquired only by "statute," that is, by a law passed by the legislature, they are fairly compensated for their loss.

"The Law Serves You" is written to inform and not to advise. No person should ever apply or interpret the law without consulting his attorney. Even a small difference in the facts may change the result under the law.

ASKS WHETHER CITY IS CONTROLLED BY INDUSTRY

To the Editor:

This letter was prompted by comments in the Forum letter of April 21.

The writer seemed slightly upset over the statement of a steel official to the effect that the steel company should get, not help, for its public service of largely easing its pollution of the air we breathe.

The statement of the official and the reply joined my memory. I seem to recall the time about ten years ago when Granville was in the national spotlight (or foglight).

A national magazine ran an article on the steel industry in the Quad-Cities. The article referred to Granite City as a "grimy mill town."

They were right — on two counts. Grimy it was, and is; a mill town (a town controlled by industry) it was, and is still.

This, I think, is the problem to which the writer really referred in his very stimulating letter.

I would like to thank the writer for more information and appraising the problem — and I

would also like to see your paper, which has not commented on the official's statement, do so now, for the public interest.

Children Art Workshop To be Held at SIU-SW

An art workshop for children ages seven to nine years will be conducted this summer at Southern Illinois University-Southwestern Campus.

The class will offer an opportunity for exploration and experimentation in a variety of materials, said Mrs. Evelyn Buddemeyer, assistant professor of art at SIU-SW Campus, who will conduct the workshop. "The motivation will be varied," she said, "and in keeping with individual needs, as well as group activity. When possible, the class will be divided into small groups by ages and compatibility of interest." Emphasis will be on the development of the individual's creative power through art activity.

Classes will meet from 2 to 4 p.m. on Tuesday and Thursday at Tract 25 on Lewis road, June 14 to Aug. 4. The registration fee is \$12. Further information may be obtained from Mrs. Buddemeyer, 462-1041, ext. 252.

More Persons May Qualify Now for Disability Pay

Elimination of the "long continued and indefinite" requirements in the disability provisions of the social security law makes it possible for many more people to qualify for disability benefits, according to Ralph Brasher, manager of the East St. Louis Social Security office.

"No longer do you need to be disabled indefinitely," Brasher said. "Now you may be eligible for disability benefits if you have

a physical or mental problem which has prevented you from working for at least 12 calendar months."

For example, consider a man stricken with tuberculosis who could be expected to recover with the aid of treatment and return to work in two years or less. Under the old law he would not qualify because his condition is not of the "permanent" type. Due to the 1965 amendments more than a year you may lose

benefits. It is better to file as soon as it appears the disability may last 12 months.

Pamphlet number 8 explains all of the recent disability changes. It is available free by letter, phone or visit to your social security office at 435 Madison Avenue, East St. Louis, Ill., phone number BRIDGE 4-2200, EXpress 7-5530, extension 33.

Two Pass Traffic Light

Two drivers were arrested early Tuesday on charges of passing a flashing red traffic signal at 20th street and Madison avenue. They were summoned for hearings by May 13. They are Clyde Nolan, St. Louis, and Jessie N. Barr, 23 Briarcliff.

\$50 Fine for Conduct

William H. Hayes, 23, of 1729 Olive street, was fined \$50 and costs Monday in magistrate's court on a disorderly conduct charge filed Feb. 16 by Madison police.

End of a Slow Journey

John W. Allen
Southern Illinois University

An earlier column suggested a 60 mile sight-seeing drive to begin and end in Murphysboro. So many spots were selected for comment that space allocated ran out in the Goshorn vicinity, some 15 miles from the starting place.

On a second try, when even more selections were made, progress was slowed down accordingly. In fact only eight miles were added, just enough to reach the Town of Grand Tower. This week's column begins there with a firm resolve to complete the planned circuit.

It might be well, however, to saunter down Front street, pause, look about, and imagine the scene a hundred years ago. Steamboats then were tied at the river landing. There was a riverside tangle where coal was loaded on barges. Another iron smelting furnace was at the south edge of town. A lumber industry would be flourishing and kilns would be burning much lime.

Ferry May Be Revived

A ferry, discontinued many years ago, carried traffic across the river. Reports have it that ferry service is to be revived and soon will be taking travelers across to the Missouri shore. The lower-like "Rock of the Cross" is always there, but is not so readily seen over a higher levee.

If you are interested in the

story of a typical river town of a century ago, return to Grand Tower for a more leisurely visit and learn more about the "The Rock" and its legends. This visit will be even more enjoyable if a time schedule is arranged to permit a midday meal at one of the more unique eating places in southern Illinois. Always the people of Grand Tower have proven friendly and appear to like visitors.

Journeying south on Illinois 3 through a section of wonderfully fertile farmlands, it is interesting to observe the abandoned channels of Big Muddy River, now sufficiently filled in to permit plowing across them. When white men came, most of the depressions were ponds. After crossing Big Muddy beside the railway bridge where a section of train once fell into the river, a halt should be made to look east along the levee-top roadway toward the Pine Hill bluff.

"Lost" Road in Woodland - This roadway gives a delightful approach to the drive that leads up and along the crest of the hills. In doing this, however, the visitor by-passes one of the more interesting sections of the whole drive. It is better to continue south on Illinois 3 to the Pine Hill sign that points the road east. A short way along this road the traveler crosses a second railway and passes the last farmhouse to start his journey over a swamp road, always good, on the longest "lost"

road through a continuous woodland known in Illinois.

Having reached the foot of the bluff over this roadway those looking closely will see dim evidences of a couple of long abandoned farm sites and a sizable cemetery, overgrown by forest trees, many of them being Kentucky coffee berries.

Over the next 12 miles the lonely roadway leads past swamps and beaver made lakes, up and down hills along ridges and the backs with frequent turnouts, picnic grounds, and lookout points that tempt one to stop and enjoy some wonderful views provided. The names of some stopping points arouse interest. A hairpin curve names itself. Visitors wonder why one point is known as Government Rock and others have names like Pine Cane Ridge, Saddle Hill and Crooked Tree.

"Picnic Area at Allen's Flat" - Among the last named picnic ground as one comes nearer the south end of the trail is named Allen's Flat. This writer wonders whether the one giving the name meant it to indicate a contraction or if it is the possessive.

At the very south end one

finds the Pine Hills Shawnee National Forest Camp Ground that apparently is being developed as an attractive camp ground where those using tents or trailers can stop for more extended stays. Better facilities for campers also are being arranged at other places in southern Illinois. Why not practice at some of them.

Emerging into the south end of Pine Hills one turns east on the black top toward Union county state forest that also has pleasing picnic facilities and millions, literally millions of forest tree seedlings that are furnished to those wishing to plant forests.

Earlier in this article mention was made of bird calls and songs. A rare treat awaits one who lingers until after nightfall in Union county forest during whip-poor-will season. Then it sounds like there were a million of them engaged in an endurance test. One who lingers for one of these evening concerts will not soon forget the experience.

Emerging from the Union county forest road on Illinois 127 sand miles of travel. "See America First" and begin near home.

Law Day Program For Rotary Club

Benefits derived by the public and attorneys from the new judicial changes, now in its second year in Illinois, will be the theme of the Law Day program, Tuesday by Lawrence T. Hartman, a local attorney. He was guest speaker at the Granite City Rotary Club meeting held last night in the YMCA. The program was presented in connection with "Law Day," observed nationally Sunday, May 1.

Three major accomplishments have been achieved through the revised judicial system, Hartman said. He outlined the advantages as simplifying court procedures by allowing certain cases to be passed a series of courts to reach the Supreme Court, better use of presiding judges through restricting and eliminating some of the confusion which arose from the large number of different courts.

Expediency and improvement in case handling also has resulted from other changes in the judicial system, the attorney explained. He explained that state statutes now prohibit judges from retaining a private law office while serving on the bench.

Political groups still can name their own candidate for a vacancy, Hartman continued, however, judge candidates are listed on a separate ballot and remain unclassified politically.

Hartman, who was introduced by Dr. E. L. Ackerman, program chairman, recently returned from three years active duty with the U. S. Navy. Presently, he is associated in the law firm of his older brother, Harry E. Hartman, and also serves as Venice school attorney.

William Hoebecke, president at the meeting and welcomed a new Rotarian, Richard Lauck. A special guest was Masaki Tanaka of Kobi, Japan, who is employed at a Nestle Co. plant in his own country. Currently, the visitor is touring company facilities here. Fifty-seven members attended the luncheon.

Airman Cantlon, Family Return for Visit Here

Airman 1st Class Allan R. Cantlon, who with his wife and three children returned home for a brief visit last week, left Granite City Tuesday for Nellis Air Force Base, Nev. He will continue to train as an instrument technician. Cantlon has been in service four and a half years.

Mrs. Cantlon, the former Linda Gale Christian of Madison, and the children will live at 2204 Buxton avenue, for the time being. Airman Cantlon and his family, prior to arriving here late last week, has been living on Offutt Air Force Base at Omaha, Neb. He is scheduled to be transferred to Thailand after completing about two and a half months training in Nevada.

Mrs. Dalhaus, 66, Dies
Mrs. Florence Sophia Dalhaus, 66, of Edwardsville, stepmother of Harold Dalhaus of Granite City, died Monday afternoon at Barnes Hospital, St. Louis, where she was a patient for two months. Services were held yesterday in Edwardsville, with burial taking place at James Cemetery, Ft. Russell township.

Council to Meet in Special Session Tuesday on Route 151 Complaints

Access roadways and fences along Federal Aid Route 151 will be major topics at a special meeting of the Granite City Council with Robert Kronst, district highway engineer for the state, to be held at 8 p.m. next Tuesday in the city hall council room.

Mayor Partney announced the special session at Monday night's regular meeting, and he urged attendance by the aldermen and interested persons.

It was indicated that other

topics also will be brought up, but official notices are to be sent to the members advising them of other actions.

The main order of business, the mayor stressed, will be to clarify the state's position on the great River Road right-of-way through the city and the design for access and frontage roads.

"Turn-Arounds Inadequate"

Protests have been made frequently by Alderman Nomm, who has said turn-arounds are inadequate and an access road should be provided between West 20th and Cayuga streets. He also is demanding the highway department erect fences along the roadway through the city.

Council members started to discuss a legal opinion submitted by City Atty. Allen concerning exemption for the state from city ordinances covering the razing of abandoned structures. Sternberg pointed to the "double-standard" which protects the state but requires compliance by individuals.

As the debate began, Nomm, who has complained frequently about the hazards of boarded up houses along the state-owned right-of-way for Route 151, suggested the matter be dropped at present and the city concentrate on access roads and fencing.

Lift Station Relocation

The special meeting may call for award of a contract to relocate a lift station that is on the right-of-way for the widening and improvement of Maryville road — now under way. The cost range was estimated at \$800 to \$1200.

Accepted by the council Monday night was a \$7345 bid by A. H. Sebold Co. for installation of curbs and gutters along Mitchell avenue. The only other bid was

\$7678 by Tom Skarle Co. The project estimate was \$7836.

An estimate of \$2880 was given for installation of sidewalks along Otto avenue, requested last week. The project is to be included in the new city budget.

New projects requested Monday night were drainage for St. Clair avenue from Willow to Jill avenue, a sidewalk on the north side of Leonard avenue between Sunset drive and Wayne avenue to serve St. Margaret Mary school, and a sidewalk on the north side of Victory drive between Marshall avenue and Garden lane for Marshall school pupils.

Crossing Repairs

Repairs to railroad crossings were discussed at length. Mayor Partney replied that the Illinois Commerce Commission and the five railroad receiving telegrams from the city demanding repairs in 10 days are beginning to respond.

Alderman Sternberg, chairman of the Street Committee, said the ICC has requested detailed maps of the crossings to show hazardous conditions. "I got the maps today and will prepare them and get them to Springfield," he told the council.

He also called for temporary repairs to large holes between rails of what is believed to be abandoned tracks at the 20th street crossing, but the council voted down any such work by

Repairs also are to be sought at a rail crossing on August street between East 23rd street and Edwardsville road. The rail service is operated by Granite City Steel Co. and Lipsett Steel Co.

New Street Options

Alderman Robertson's motion for the city's consulting engineer to get detailed information for obtaining options for a new

north-south street parallel to the Washburn Railroad tracks between 22nd street and Pontoon road was approved.

Several aldermen said such detailed information would be costly and that perhaps the engineer should confer with state highway officials concerning the junction with Pontoon road. They pointed out that three years ago the state had refused such a new road junction, saying the distance along Pontoon road between Namooki road and the railroad tracks was too short and would create added hazards.

Robertson said the need for the roadway exists, and that the city should move quickly to obtain options before land prices soar. The council authorized the engineer to prepare a cost estimate for construction of the roadway during a meeting several weeks ago.

Strip Annexation

Annexation of a strip of ground 20 feet wide and 1271 feet long was approved to get all of the 60-foot right-of-way for Edgewood drive into the city. The 20 foot section, extending south of Johnson road had never been annexed.

Also annexed for the Tri-City Park Assembly of God Church was a 7.6-acre tract along the proposed extension of Maryville road and bordering on Wilshire Additions 7 and 8.

Permission was given J. C. Cochran, local pastor, to install a 30-foot driveway along Johnson road at the property being razed immediately behind the service station in Bellemeade Village shopping center. The driveway is to meet the state highway department requirements

Brownie 'Fun Day' Is Saturday at Lee Park

"Fantasy Land" will be the theme of the Brownie Girl Scout Fun Day to be held at Lee Park in Venice from 9:30 a.m. until 3 p.m. on Saturday.

Each of the girls is to have a sack lunch, and the Girl Scout leaders will provide centerpieces and name tags for the girls. There will be a 30-cent registration fee and reservations may still be made with Mrs. Delores Sanders, TR 6-0442.

In case of rain the Fun Day will be postponed until June 4.

Retired Members Set Meeting on Saturday

The Fraternal Society of Retired Members will hold a regular meeting at 10 a.m. Saturday at 1810 State street.

Through the courtesy of Granite City Steel Co., more than 100 photos of recent and long-retired employees of the firm will be on display at the retired members' center and will be available to the retirees or their relatives.

Robert McCormick, labor representative of the Tri-Cities Area United Fund, urged other persons to give serious consideration to the Social Security medicare amendments of 1965.

He noted that the amendments provide a wide range of new benefits. While the increased cash benefits and hospitalization insurance are available automatically to those currently deriving Social Security, other benefits provided by the new law require action by the potential beneficiaries before they can be made available to them, he added.

Most important, he said, is that those 65 years or over must apply by May 31 if they wish to receive full and prompt benefits under the voluntary medical insurance program. Those not previously eligible to receive cash benefits but who now are eligible under the new law must also file application.

GC Kiwanis to Celebrate 20th Anniversary at Dinner

Dr. Walter C. Eberhardt, physical fitness director at St. Louis University and instructor for the University exercise classes will be guest speaker at the 20th anniversary dinner party of the Granite City Kiwanis Club, held at 6:30 p.m. Monday in the Rose Bowl.

The announcement was made by Robert Lombardi at the club's regular dinner meeting Monday evening. Several other special events are being planned, such as cutting a large decorated birthday cake and showing of colored slides of club activities.

Marvin Barnes, chairman for the anniversary dinner, said past presidents and charter members have been invited. Mrs. Georgi exercise classes will be given by Wagoner, Mrs. Lombardi and Mrs. Melvin T. Gillie will serve on the decorating committee and special gifts for the wives of the club members will be given by the wives.

In other business, the club heard a progress report on the fifth annual Kiwanis-Slowline Boat races set for 1 p.m. Aug. 21 on the Mississippi River near the Hartford Canal. William Seebold, races co-chairman, said plans have been finalized by a joint committee from the two clubs, who conducted the regular business session Monday.

Control of Odors Urged in Area's Air Pollution Program

Surveillance of odors throughout the entire Illinois-Missouri metropolitan area air pollution basin should be made an integral part of the air resource management program being prepared by the Interstate Air Pollution Study. It was recommended today in an Odor Survey report released by study engineers in St. Louis.

In other recommendations resulting from the odor survey, the report urges cooperative studies by government and industry be

be completed with the release of two more reports — the Air Resources Management Program and the report on Proposed Regulations for the Metropolitan Area. The latter will provide legislative standards for passage of air pollution control legislation.

Firemen are Sufferers
The odor survey was based on a total of 5622 observations made at 79 fire houses — 13 in the Illinois section, 37 in the city of St. Louis and 29 in St. Louis county — during a period of Nov. 18 through Dec. 1, 1963. Firemen were used as observers, with five observations made each day at 7 a.m., 8 p.m., 10 p.m., 10 p.m. and midnight.

St. Louis observers recorded the highest frequency of both total and unpleasant odors, the report revealed, with the Illinois area reporting the second highest. St. Louis county had much lower frequencies. For the area as a whole, including both sides of the river, 26.6% of all observations showed the presence of odors, and 66% of this number were unpleasant.

The report stated that "many of the odors in the metropolitan area can be reduced or eliminated through more careful attention to methods currently in use. For others, intensive improvements will be required by government or industry to reduce the pollutants to a tolerable level."

Positive odor observations were the highest for the 8 p.m. observation with odors more generally detected at night than

during the day, the report said. Most of the sources of odor are the trips of industry-owned properties just adjacent to the Mississippi River. An odor strip of industry-owned property runs west from the river, the report said, and is the most frequent source of odor.

In Illinois, the report stated, the frequency of positive odors increased from 8 p.m. to midnight instead of decreasing. This may be the result of low level inversions caught with the existence of ground level sources such as burning dumps. These low level inversions that form at night tend to keep pollutants near the ground and in high concentration, the survey explained.

Detailed source of odors is not specified in the odor survey by communities or localized areas, but is divided in intensity, source and type, principally to the Illinois, St. Louis City and St. Louis county areas.

Research activities by both government and industry also are recommended in the report which states "there is much to be learned concerning the kinds of compounds which are responsible for the production of odors together with their related physiological and psychological effects. As developments are made in these areas, it may be possible to design methods for measuring odorous pollutants which do not rely on the human sense of smell."

The survey was made by fire-

Barron Reports Potential Client For Tri-City Port

A potential new client for the Tri-City Regional Port District resulted from recent visits to Seattle, Wash., and San Francisco by Cmdr. John Barron, manager of the port district, it was learned this week.

Pending further negotiations, no details of the type of business or its products were released. Barron said only that the firm is a large one and that its officials indicated high interest in the port facilities.

Barron was a member of a team of 15 Illinois businessmen representing utilities, railroads, chambers of commerce, a real estate development group and the Illinois state government who went to the West Coast last month to brief business and government officials on the economic advantage of an Illinois location for plant expansions.

Appointments with key executives of Seattle and San Francisco firms were prearranged by the Industrial and Community Development Division of the Department of Business and Economic Development.

The group of 15 Illinois representatives split into teams of two, three or four each, with each group assigned to interview business and government officials in Seattle and San Francisco executives.

Cmdr. Barron said he and a number of his team, including Charles Wayman, Central Illinois Public Service Co.; Clarence Mueggen, the city of Peoria, and Paul Scott of the Illinois Department of Business and Economic Development, made two calls on business officials in Seattle and six calls on San Francisco executives.

The annual "Sell Illinois" missions originated three years ago under guidance of Gov. Otto M. Weaver. Two such tours are conducted each year, covering west, east coast and upper midwestern areas.

Leatherman Renamed Head Of Venice School Board

Michael E. Leatherman was re-elected president of the Venice school board of education Monday evening, at the annual reorganizational meeting. Also by acclamation, board members named as secretary, Fred B. Durer Jr., who succeeds Roy L. Musick.

John O. Pier, Venice superintendent of schools for the past 11 years, was rehired for the 1966-67 school year. Others re-appointed to various paid positions with the Venice school district, included Lawrence T. Hartman, newly-retained school attorney, who will receive the same monthly salary of \$225; Donald Phillips, school treasurer, also rehired at \$100 per month salary; Dr. J. C. Byers, school physician, and Dr. John E. Lee, school dentist, rehired at the same \$200 monthly fee.

Leatherman, 39, was re-elected without opposition in last month's Venice school election to his fourth consecutive three-year term as a board member. Married and the father of three sons, he is employed as yardmaster at the Granite City Army Depot. The family resides at 1631 Third street, Venice.

Durer, 37, an insurance agent, is starting his third year on the school board. Also married with two children, his wife, Florence, is employed as a teacher in the Venice school system. He lives at 801 Jefferson avenue. Durer will receive \$125 monthly salary for his secretarial duties.

Purchasing Procedure
The board president praised the efforts of various committees during the past year. He mentioned that operations in the district have functioned smoothly since utilizing the standing committee requested the board to continue with a practice instituted last year, which provides that all

school purchases exceeding \$25 be cleared through the purchasing committee, unless an emergency. He added that restricting purchases to those authorized by the committee has enabled the district to solicit bids on items in quantity, rather than on a separate basis, thereby proving more financially beneficial.

Committee appointments were — personnel, Durer, chairman, and Leo Davinroy and Musick; purchasing — E. M. Taylor, chairman, and John Gonterman and Durer; building — Davinroy, chairman, and Fred Rumpf and Taylor; and finance — Musick, chairman, and Gonterman and Rumpf.

In other action, the group authorized expenses for Pier and other board members to attend a dinner meeting of the Illinois Association of School Boards on Tuesday, May 3, at Belleville. Pier said plans for the IASB's fall conference were to be made at the session, together with general discussions on school problems.

Physical Skills Program
Approval also was given for use of the school gymnasium from 5 to 8 p.m. three evenings each week for a physical skills program, conducted by William Ohlendorf, Venice coach. Starting June 6 and continuing for about eight weeks, the program will be open to all Venice high school age youths interested in athletics. The physical education instructor and an assistant coach sought no compensation from the board for conducting the project.

Following a recommendation by Sup. Pier, board members also agreed to retain the Page Insurance Co. of Mt. Vernon, Ill., as the general insurer for the 1966-67 school accident insurance program.

However, after discussing various benefits received through different plans offered by the company, school officials elected to offer students a more comprehensive form of accident insurance. The plan will raise the cost from \$2 to \$2.50 for kindergarten through sixth grade pupils and from \$2.50 to \$3.50 for seventh through 12th grade students, administrative personnel and faculty members. The new proposal still protects the students during school hours only.

Mrs. Martha Snelson, 95, Dies; Ill One Year

Mrs. Martha Elvira Snelson, 95, formerly of 2210 Delmar avenue, died Monday evening at the Pleasant Rest Nursing Home, Collinsville. She had been in failing health for the past year and in the nursing home the same length of time.

Born in Steelville, Mo., Mrs. Snelson had resided in Granite City for 63 years. She was a member of Niedringhaus Memorial Methodist Church, the Women's Society of Christian Service and the Ladies Quilting Circle. Her husband, William T. Snelson, died in 1933.

She is survived by one sister, Mrs. Minnie J. Carrier of Granite City; one grandchild and one great-grandchild. Funeral services were held today. Arrangements are given in the city's obituary column.

Motorcyclist Arrested
Teddy R. Irvin, Lyons, Ill., was charged with careless driving of a motorcycle at 21st street and Madison avenue where he was stopped at 11:20 p.m. Monday. He was summoned for a hearing by May 13.

"Round-the-clock," 24-hour coverage, will be available for \$15. Pier said, a raise of \$3 per year for students and teachers purchasing this type of insurance.

The superintendent explained the new plan will provide increased benefits, including specific treatment by a physician in his office, as opposed to hospital treatment, only as listed under the earlier plan.

Primary reason for recommending the higher rate proposal, Pier said, was to increase benefits on the number of x-rays allowed. He added that this portion of the original insurance plan was the only area questioned as inadequate by parents of participating students.

Pier explained that x-ray coverage in the "controlled" plan allowed for a maximum \$5 benefit per accident, while the new program provides for two x-rays per accident, with additional service if the condition is a definite fracture or dislocation.

The new school insurance proposal also provides for surgery, doctor visits, hospital services (semi-private room rate), nursing care, ambulance service (up to \$25), drugs and medicine, when furnished and administered by hospital or physician, physiotherapy, orthopedic appliances (up to \$20 each), and dental services.

Board members also agreed to accept a three-year contract with Bi-State Transit Co. for transportation of Venice school children.

Pier recommended the proposal which calls for a \$1.40 daily increase rate for 1966-67, upping the daily cost to \$88.40. Rates for the subsequent two years were disclosed as \$88.55 for 1967-68 and \$89.50 for 1968-69. Present daily cost for transportation is \$87.

Transfer of \$4000 from the education fund to the transportation fund was authorized. Monthly bills approved for payment included \$13,100 from the recreation fund, \$2000 from the transportation fund for bus service in March and \$1432 from the building fund.

Elliott New Board Chairman

Ex-Chief E. R. Burnett Named Police, Fire Commissioner

Granite City has an experienced group serving as the Board of Fire and Police Commissioners. It was noted this week by Mayor Partney.

Eugene R. Burnett, who was named to the board Monday night by Mayor Partney, is a former police chief.

The new board chairman, Ralph Elliott, who was elected to the post in a reorganization meeting of the board Tuesday, is a former city fireman.

George Veizer, the third member, is a former alderman and Police committee chairman, a former deputy sheriff and a former state auto license investigator.

Burnett, who presently is supervisor of personnel services and security at Dow Chemical Co. in Madison, lives at 234 Lee avenue, and was Granite City police chief in the 1940s. His appointment was confirmed unanimously by the council. His term runs through May 1, 1968.

Burnett was named to fill the vacancy created by the May 1 resignation of William Brockus, who served 3 1/2 years. Brockus was board chairman at the time of his resignation. He plans to move out of the city to a farm near Edwardsville.

Following Tuesday's reorganization at the city hall, newly-elected Chairman Elliott said no policy changes are planned at present. The board did grant a leave of absence to police patrolman Frank Harris, who is a Democratic candidate for sheriff nomination in the June 14 primary.

Library at SIU-SW Gets 200,000th Volume

Friends of the Library at Southern Illinois University—Southwestern Campus has presented a rare pioneer—Illinois imprint to the Lovejoy Library at the new campus, marking its 200,000th volume.

The book is entitled "Proceedings of the Antiquarian and Historical Society of Illinois at Its First Session in December 1827," with an Address, Delivered by the Honorable James Hall," and was published in Edwardsville in 1828 by Robert K. Fleming of The Illinois Coroner, an Edwardsville newspaper that folded after its first year of publication in 1827.

In making the announcement of the gift, John Abbott, head of the Lovejoy Library, called the book a collector's item. Only two other copies of the book are known to exist, Abbott said, one in the Harvard library and the other in the Boston Athenaeum. "This is a significant addition to Lovejoy's special collection of historic and rare books."

The Antiquarian and Historical Society of Illinois, the second society formed in Illinois, was founded by two prominent Illinois citizens, Judge James Hall and Gov. Edward Coles. Hall served as first president and Coles as first vice-president.

Friends of the Library was organized in 1960 to create a public interest in SIU libraries in Carbondale and the new campus and an awareness of their specialized holdings for research and study by faculty members, students, and other interested scholars. Membership funds gifts of library materials to the library and the Friends are directed through

Set, Costume Designs On Display at SIU-SW

A collection of 50 studies for set and costume designs, entitled Masters of Ballet Design, is on exhibit until May 22 at Southern Illinois University.

Assembled to evoke that period which began early in the twentieth century when the combined talents of a new and vital group of young artists, composers, entrepreneurs, and dancers revolutionized the traditional art of the ballet, the exhibition was organized by the California Palace of the Legion of Honor in San Francisco from the Alma Spreckles Collection and is currently touring the United States under the auspices of the Smithsonian Institution.

The exhibition features the work of ten of the outstanding designers of this period: Alexandre Benois, Leon Bakst, Alexandre Golovine, Nathalie Goncharova, Alexandre Iacovlevi, Michel Larionov, Marie Laurencin, Jose Maria Sert, Alice Halicka, and Pablo Picasso. It focuses especially upon the French productions of the Ballet Russe.

The exhibit is being divided among three centers at SIU-SW Campus—in the cafeteria at the Lovejoy Library at the new campus; the Student Lounge of the Altan Center; and the Quiet Lounge in East St. Louis.

Annette Gasparovic Learns—

Governor Favors Right To Vote for Teenagers

Annette Gasparovic, senior at Granite City high school, participated in a news conference with Gov. Kerner in Springfield at the 17th annual YMCA Youth and Government program.

With 12 other members of the press section she posed such questions as, "Should the legal voting age be lowered to 18?" and "Just how can the legislators at a mock legislature such as this one help to affect the outcome of local election?"

The governor replied that the teenagers of today are far better informed about the operation of government today than are their parents, and therefore the 18-year-old should be allowed to vote.

In reply to the second question, he answered that discussion of the happenings of the program with friends, teachers and relatives will instill a better general understanding of the operations of state government.

Take Active Parts

Gov. Kerner also said that youths should take an active part in elections by providing transportation to the polls, babysitting for families with children and distributing leaflets concerning the candidates.

Miss Gasparovic and two other members of the Granite City YMCA Teen Town have returned from the youth legislature. The others are Linda Blumeister and Alan Crider, who participated in roles of representatives and senator. Miss Gasparovic was associate news editor.

They were among 300 delegates from 80 YMCA's in the state. They prepared legislation to be submitted to the group since last October and went through the actual process of legislative action, working in committees, on the floor of the House of Representatives and Senate and in the offices of the governor.

Use State Facilities

The youths used the desks of the elected representatives in the capitol as well as committee, press and other facilities of the governmental complex in Springfield.

The group was addressed in the opening session by the governor, who also favored a constitutional convention for the state and other measures.

Among action taken by the youths were favoring air pollution control, repeal of the state teen drivers curfew and a resolution advocating the calling of a state constitutional convention.

The group also arose to a unanimous standing endorsement of support for the efforts of the U.S. in Vietnam.

The following officers were elected: Terry Kelahan, president; Susan Chandri, vice-president; Sue Hogan, secretary-treasurer; and Mike McGovern, sergeant-at-arms.

Other representatives were Danny McNeely, Gary Clark, Danny Rapoff, Bobby Greenwell, Frank Clark, Charlotte Tapp, Kandy Fuller, Sandy Probert, Carol Boggs, Janet Corbin, Donna Kris, Carolyn Hunt and Redia Hunt.

Activities for the summer were discussed, including dances, trips, hayrides, swimming parties, sports and charm courses for the girls. Also discussed were worthwhile projects of a civic nature.

The Junior High Council represents boys' and girls' clubs and three boys' clubs. It will meet every Saturday at noon with staff members Mrs. Bonnie Fuller and Dave Williams.

New GI Bill Education Forms Now Available

Application blanks for educational benefits under the new GI Bill are now available at Veterans Administration offices, all major colleges, universities and educational centers.

Earliest date for courses under VA payment has been set by law as June 1, 1966, with payments to be made the month following each month's study. In almost all instances there will be ample time for those who expect to enter summer sessions to complete the necessary paperwork. No checks will be issued for courses started before June 1.

This post-Korean educational program will be open to all veterans with discharges other than dishonorable and with more than 181 days active duty service, any part of which occurred on or after Feb. 1, 1955. If in service less than 181 days, the veteran must have been discharged or released for a service-connected disability.

These veterans will be eligible for one month of education for each month or fraction of a month that they were on active duty. Maximum education will be 36 months.

Commuting Blamed for Apathy at Campus Here

Lack of a university community caused by commuting students was blamed this week for "apathy" over activities at the

Southern Illinois University-Southwestern Campus.

University leaders agreed that most students prefer to return to their homes and jobs outside of classroom work than to take part in campus organizations.

However, nine students at the Alton branch held a student meeting yesterday in an effort to organize more activities as dances and special functions.

Granite City PRESS-RECORD, Thurs., May 5, 1966 Page 41

They pointed out that a number of freshmen and sophomores have nothing to do in their free time. The group claims that there is no student fellowship, the reason for a lack of interest in the Student Senate or the University Center Board.

Farm Column

By TRUMAN W. MAY
Madison County Farm Adviser

Changes in Farming Expected to Be Rapid

We need to think of change, not stability, as normal for farming. Even though we have had what seems to be terrific rates of change during the past decade, changes will continue to occur, and some of them will come even faster.

So said Emil Mosser, area adviser in farm management, University of Illinois Extension Service, speaking at the recent annual meeting of the Pioneer Farmers Cooperative. Our column this week is a summary of the points he made in discussing the changes in farming we can expect during the next ten years. Farmers and managers should seriously consider these anticipated changes in making plans for the most profitable operation of their farms in the future.

A major change will be in the effort to use labor more efficiently. One of our biggest problems is to make effective full-time use of labor.

This is not a simple problem to solve with variations of labor requirements from time to time in a business that is so closely tied to the weather and biological processes.

For some time we have experienced a trend of higher prices paid for hired help. It is also becoming more difficult to secure good, steady, reliable hired labor. There is a trend toward more owner-operator farms or to father-son or partnership arrangements where a steady supply of labor is dependable for the entire year rather than depending upon hired help. There is also a trend toward larger equipment and more mechanization. There has been some shifting in livestock numbers so they may be handled by the owner-operator.

Some concern is expressed on various proposals to bring farm labor under more strict federal requirements to meet the minimum wage law.

Capital and credit will become more important in your farming operation. There will be more emphasis on using borrowed funds as a tool in farming and less emphasis on becoming free of debt.

Family Firm Investment
It is not uncommon to find a farm family with over a quarter of a million dollars tied up in resources in the family farm. It is estimated that in Illinois we have investments of \$75,000-\$100,000 for each farm worker. This is one of the highest if not the highest investment per worker of any industry in the state.

Interest paid per acre or per farm has been increasing as have taxes, hired labor, and most operating costs. We can expect higher interest rates. This combined with more capital requirements means you can expect to be paying more dollar interest on borrowed funds in the future.

The emphasis on feed production will continue. This is the foundation of our Illinois agriculture. The better land areas will be farmed more intensively in high profit crops. Usually these are cash-grain crops. We will continue to question long range effects of continuous corn, but the economics of the farm business and pressures to improve farm family living levels will encourage farmers to move in this direction so long as they can obtain acceptable yields.

We recognize the need for continued higher yields per acre. Most of us are still at the point where increased yields mean lower cost per bushel of corn, soybeans or wheat.

Increased Yield Problems
This increased yield creates problems in handling and storing of grain. The peak burden of grain will continue to occur at harvest time. The solution lies jointly in working arrangements between individual farmers and their elevators.

With higher land prices, taxes and operating costs farmers will seek ways of increasing returns from hay and pasture land and other non-crop areas.

Fertilizer, particularly the use of nitrogen, will continue to be important. Fertilizer has been and probably will be one of the best

buys in agriculture. The price paid per ton of fertilizer has not increased significantly in recent years.

For a dollar invested, farmers receive on the average, a higher return for fertilizer purchased than any other input used in the farming operation. It is estimated that a farmer now receives about \$3.50 to \$4 for each one dollar invested in fertilizer. Where else could we expect to get a return of 400% on our investment?

Adding confusion to the decision as to whether to change the present operation to one of the newer trends is the standard farm lease many of you are operating under. These new trends tend to add costs to your operation. Can you convince the landlord to share in these increased costs or are you as a tenant willing to assume the additional costs yourself out of increased income per acre? This is a decision each tenant must make.

In livestock there is more mechanization, increasing at a more rapid rate than for crops. Each change usually adds additional cost.

With land prices going higher each year the trend is toward confinement of livestock to free more land for crop production. The effort to make efficient use of labor and to reduce the risks of prices and diseases will en-

courage many farmers not to specialize to the point that they have only one livestock enterprise.

Farms Continue to Grow
Farms will continue to increase in size. The size unit that will fully employ operator and family labor will predominate. Most of the cost advantages in crop production due to size of farm are realized in the 300 to 500-acre range. There are still many areas in which the average size farm is not big enough to fully employ one man. At least one-third of our farms in Illinois are 160 acres or less. Some of these are economic units, they have an intensive livestock operation. Others are part-time farms; this is especially true in this area.

It seems that the one-man farm will predominate. There may be a shift away from a full time hired man toward hiring regular custom work if machinery costs continue to climb.

There has been increased emphasis on additional sources of non-farm income. This includes off-farm employment, business activities and farm oriented recreational enterprises. This trend may continue especially for those farmers with limited acreage and little desire to expand livestock enterprises.

The success of the individual farmer in the future will depend in a great deal on how good a
